RESEARCH INTERESTS

My research centers on building multimodal foundation models with reasoning capabilities that integrate vision, language, and audio through cross-modal alignment and grounding via Reinforcement Learning (for eg., DPO and GRPO).

Major Interests: Multimodal Large Language Models (Alignment, Reasoning, Grounding), Data Efficient Reinforcement Learning, Audio - Video Understanding

Minor Interests: LLM Post-training, AI Safety Alignment, Reward Modeling, Human Preference Learning

EDUCATION

May 2028 Aug 2024	Arizona State University, TEMPE, AZ, USA Ph.D. in Computer Science Advisor : Dr. Pooyan Fazli GPA : 4.29/4.0
May 2024 Aug 2022	University of Southern California, LOS ANGELES, CA, USA Master of Science in Computer Science GPA : 3.67/4.0
May 2022 Aug 2018	Pune Institute of Computer Technology, PUNE, India Bachelor of Engineering in Computer Engineering CGPA : 9.8/10.0

EXPERIENCE

Present Aug 2024	People and Robots Laboratory (PeRL), ARIZONA STATE UNIVERSITY, Tempe, AZ Graduate Research Assistant Advisor : Dr. Pooyan Fazli <ul style="list-style-type: none">➤ Enhancing reasoning and alignment in video-language models through efficient, self-supervised preference optimization and reinforcement learning.
Aug 2023 Jun 2023	Nokia Bell Labs, NEW PROVIDENCE, NJ, USA Research Scientist Intern Advisor : Dr. Thomas Woo <ul style="list-style-type: none">➤ Accelerating distributed training of large language models by designing efficient model and pipeline parallelism strategies for heterogeneous clusters.
Mar 2024 Jan 2023	USC Institute for Creative Technologies, LOS ANGELES, CA, USA Graduate Research Assistant Advisor : Dr. Meida Chen <ul style="list-style-type: none">➤ Developed a 3D style transfer pipeline using CLIP-guided Gaussian splatting and diffusion models for large scale aerial point clouds.
Oct 2021 Jul 2021	RBCDSAI (IIT Madras), CHENNAI, India Research Intern Advisor : Dr. Nivethitha Somu <ul style="list-style-type: none">➤ Proposed an end-to-end framework for high-accuracy electricity theft detection in industrial smart grids using Enhanced Dynamic Time Warping.
Oct 2020 Jul 2020	DRDO HQ, NEW DELHI, India Research Intern <ul style="list-style-type: none">➤ Developed a novel, scalable framework for malware analysis by building a stacked ensemble classifier to detect malicious LSB steganography in images with high accuracy.

TEACHING EXPERIENCE

Graduate Teaching Associate, Arizona State University

- CSE 485 : Computer Science Capstone I, Spring 2025
- CSE 240 : Intro to Programming Languages, Fall 2024, Spring 2025
- CSE 220 : Programming for Computer Engineering, Fall 2024

PROFESSIONAL SERVICE

Conference Reviewer

- ICCV 2025
- CVPR 2025
- ACL Rolling Review (ARR)
